

Carbon Reduction Plan

Supplier name: TES Communications Ltd

Publication date: January 2023

Commitment to achieving Net Zero

TES Communications Ltd is committed to achieving Net Zero emissions by 2050.

Baseline Emissions Footprint

Baseline emissions are a record of the greenhouse gases that have been produced in the past and were produced prior to the introduction of any strategies to reduce emissions. Baseline emissions are the reference point against which emissions reduction can be measured.

Baseline Year: 202	22 January to December
Additional Details	relating to the Baseline Emissions calculations.
and company gas	ons are taken from company vehicle fuel usage and electricity use in scope 1 use in scope 2. No scope 3 emissions have been measured at this point. added in the future as the process becomes more established.
EMISSIONS	TOTAL (tCO ₂ e)
Scope 1	1369.28
Scope 2	2.53
Scope 3 (Categories 1,3,4,5,6,8)	0
Total Emissions	1371.81

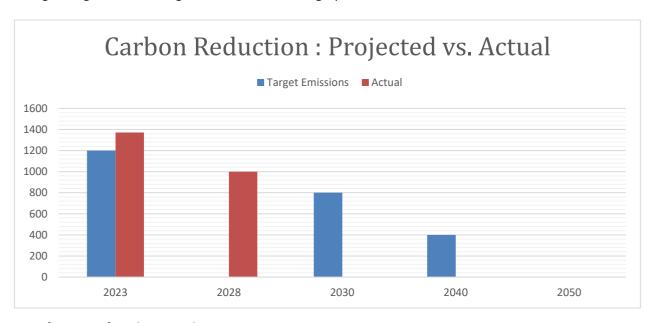

Emissions reduction targets

In order to continue our progress to achieving Net Zero, we have adopted the following carbon reduction targets.

We project that carbon emissions will decrease over the next five years to 1000 tCO2e by 2028

This is a reduction of 27%

Progress against these targets can be seen in the graph below:

Carbon Reduction Projects

Completed Carbon Reduction Initiatives

The following environmental management measures and projects have been completed or implemented since the 2022 baseline. The carbon emission reduction achieved by these schemes equate to 1349 tCO $_2$ e, a 2% reduction against the 2022 baseline and the measures will be in effect when performing the contract.

- Improved our ability to remotely sign in to client radio systems which has reduced the need to visit site as often
- Implemented hybrid working in our sales team
- Switched our energy providers to sustainable suppliers gas supplier Positive Energy and electricity Opus energy.
- Moved 40% of our client meetings on-line as opposed to face to face

In the future we hope to implement further measures such as:

- Improve building insulation and replace gas boiler with renewable heat source.
- Extend our hybrid working policy to other parts of the business such as engineering
- Increase virtual client meetings to 80%
- Possibly move to smaller, more efficient premises in the future

Declaration and Sign Off

This Carbon Reduction Plan has been completed in accordance with PPN 06/21 and associated guidance and reporting standard for Carbon Reduction Plans.

Emissions have been reported and recorded in accordance with the published reporting standard for Carbon Reduction Plans and the GHG Reporting Protocol corporate standard and uses the appropriate Government emission conversion factors for greenhouse gas company reporting.

Scope 1 and Scope 2 emissions have been reported in accordance with SECR requirements, and the required subset of Scope 3 emissions have been reported in accordance with the published reporting standard for Carbon Reduction Plans and the Corporate Value Chain (Scope 3) Standard,

This Carbon Reduction Plan has been reviewed and signed off by the board of directors (or equivalent management body).

Signed on behalf of the Supplier:
